

Build. Decorate. Celebrate!

1. Carefully cut out the cabin along the outside lines with scissors.
2. Fold the cabin inward along the straight lines of the walls and roof.
3. Fold the tabs inward; use double-sided tape or glue on the tabs to adhere them onto the other side when folded.
4. Press the tabs against the edges of the panels to secure them in place.
5. Decorate your cabin with the decorations to suit your holiday vibe and *enjoy!*

Great things start with a solid foundation and our *foundation is you!*

Thank you for helping us build an amazing year.

Happy Holidays!
